

Hello All,

I hope everyone had happy and safe holidays and is having a happy new year! I am pleased to officially announce that this Saturday morning, (01/11/2020) we began work on the new flying field project! A group of members were able to put down a significant amount of the felt underlay for the roads in preparation for loads gravel and equipment expected to be delivered this coming week.

I'd like to thank Phillip Moore, Mark Sumner, Joe Duncan, Bob Johnson, David Hooks, and Gary Livingston for coming out **in the rain** and doing all of this hard work. I have attached photos to this email of some of the great work these guys did, y'all should check out all the progress they were able to make! Weather permitting, when the landfill reopens on Tuesday we are having equipment and gravel delivered to begin building up the roads. I don't know about you guys, but I am excited to see this project begin! It won't be long before we're flying out there!

***Note-> After this email I will be changing over to our email list for the current 2020 WCRC roster. This means if you have not paid your dues or otherwise made arrangements to be on our 2020 roster you will no longer receive emails from WCRC. If you would like to continue on as a club member please contact myself or one of the other officers and we will help you with the process. If you are not planning on renewing currently, we hope to hear from you or see you at the new field soon!**

January Meeting

Our January meeting is this Monday, January 20 at [Carolina Fine Foods](#) located at [625 SE Main St, Simpsonville, SC 29681](#). Come to eat at 6:30pm, meeting begins at 7:30pm. We will be discussing the Enoree Landfill Project progress and direction. See you there!
